IT WAS THE GLENCOE.

The Identity of the Sunken Steamship Ascertained.

Fifty-four Lives Reported to be Lost by the Collision.

She Carried No Passengers, and Pited Between Liverpool and London.

INPECTAL CABLE TO THE EVENING WORLD. LONDON, Feb. 7 .- The steamer sunk in collision Monday night was the Glencoe, belonging to the Glencoe line, of Glasgow. This has been learned beyond a doubt.

The Glencoe was bound from Liverpool to London. Her crew consisted of fifty-four men. She had no passengers.

She was then passing Prawle Point. The Glencoe was a three-masted, iron screw vessel, of 1,901 tons. She was built at Glasgow in 1878, and was owned by Mo-Gregor, Gow & Co. Her rating was 100 A 1

at the British Lloyds. Details of the Glencoe-Largo Bay collision are arriving.

The vessels struck so forcibly that the Largo Bay's foremast was torn down and crushed through the deck-house.

A tempest was raging. The snow was falling thickly. The lookout on either vessel could not see the lights of the one approaching until a collision was inevitable.

The Glencoe tried to cross the Largo Bay's bow. Failing, she struck the bark while going at full speed.

The water-tight sections of the Largo Bay saved her from going down. The suddenness of the shock dazed

the crew of the bark. They saw nothing further of the steamer, but could make out her crew struggling in the water. It was impossible, however, to render any assistance, all of the Largo Bay's boats being smashed.

The wind blew with such force that the sails of the bark were torn in shreds and a boy was carried overboard.

DE FREYCINET PREVENTED BLOODSHED. The Ministry Wanted Boulanger Declared

THY CABLE TO THE PRESS NEWS ASSOCIATION, 1 LONDON, Feb. 7.—A report comes from Paris that on the night before the election of the 27th ult., M. Floquet proposed to the Cabinet the arrest of Gen. Boulanger as a

conspirator against the Republic. The majority of the Cabinet approved the plan, but M. de Freycinet. Minister of War, protested against it, declaring it would be sure to cause bloodshed. The project was

therefore given up.

Mr. Blowitz, the Paris correspondent of
Times, says he believes that the story is true,
but an official contradiction may be expected,
It will be remembered that on Saturday,
the 26th inst., the air was full of rumors of a
coup by the Government. The report got
out that the arrest of the General was untended, and the premature publication did
as much to prevent the execution of the deas much to prevent the execution of the sign as the vigorous opposition of M. de Freycinet. Had the attempt been made. Paris would have plunged in a sea of blood. The Boulangists had been warned and were

chief.

Their leaders were prepared to take full advantage of such a fatal step. The General himself in his proclamatious challenged the Ministry to try it, and welcomed it as the forerenner of victory, declaring at the same time that it would prove the downfall and humiliation of the Government.

The color line, as between blacks and and whites, is very closely drawn in Jamaica, L. I. and there is likely to be trouble over it. The village boasts of two public schools. One is provided for white and the other for

colored children. The school for white children is on Harriman street and is presided over by Principal

Ballard. On Thursday last Miss Annie Mott, one of the teachers, called the Principal aside and informed him that she had reason to believe that she had two colored children in her

class.
She said that they were John and Willie Freedell,
Principal Ballard called the two lads before him and questioned them. Johnnie, the oldest, according to Mr. Ballard, said that his mother was a colored woman, and unon this admission of the child and the as-sertion of the teacher both boys were seut

On Monday another teacher called on the Principal and said that another of the brothers was in her class. This boy has red hair, a carroty red, and the Principal was struck dumb. As there was no evidence that they were colored the Principal decided to let them remain.

This is the situation to-day. The Principal by his actions has declared two brothers of a family to be colored and two white.

The wind which accompanies the eastward movement of the storm is caused by the high barometer area in the South, which is also moving eastward. Last night the wind reached a velocity here of forty-two miles an hour, and all this morning it was blowing at the rate of thirty-six miles.

The probability is that there will be a rapid rise in the temperature as soon as the wind goes down. The cold has already moderated very much. There has been a great deal of snow to the north of us and in New England, and sill the railroads are blockaded in the northern part of the State, where the temperature was reported this
